

# The Hepatitis C Support Project presents Hepatitis C Train-the-Trainer

The Hepatitis C Support Project/HCV Advocate is conducting Basic HCV workshops throughout the United States. We are interested in partnering with organizations to bring our training to agencies that work with people at risk for hepatitis C and are willing to collaborate with agencies in their area.

Workshop training includes:

- HCV Transmission & Prevention
- HCV Diagnostic Tools
- HCV Disease Progression and Disease Management
- HCV Treatment

The training includes resource sharing, and interactive sessions. People who attend the entire workshop and complete the workshop requirements are certified by our agency as a Basic HCV trainer.

The costs associated with the workshop are paid for by unrestricted educational grants.

If you would like to schedule a workshop or have further questions please contact Alan Franciscus at [hcvadvocate@gmail.com](mailto:hcvadvocate@gmail.com)  
Matthew Zielske at [hcsptesting@gmail.com](mailto:hcsptesting@gmail.com)

Course materials and other educational  
tools included at NO COST!
